❖ [Program](#)

OFFICERS

[Back to Annual Meeting Program](#)

President, GEORGE J. HEUER, New York City
Vice President, JOHN ALEXANDER, Ann Arbor, Mich. *Secretary*, DUFF S. ALLEN, St. Louis
Treasurer, EDWARD D. CHURCHILL, Boston

PROGRAM

[Back to Annual Meeting Program](#)

9:00a.m. Amphitheater. Building C
Harvard Medical School.

1. Business meeting of the Association.
2. A Consideration of the Dangers of Lobectomy in Relation to the Technic of the Operation.
Dr. Edward W. Archibald, Montreal.
3. Lobectomy in Children for Bronchiectasis.
Dr. J. V. Bohrer, New York.
4. Lobectomy Left Upper Lobe for Carcinoma.
Dr. Carl Eggers, New York.
5. The Effect of Sudden Occlusion of Either Primary Branch of the Pulmonary Artery on the Cardiac Output and Pulmonary Expansion in Dogs.

Dr. Richmond L. Moore
and (by invitation)
Dr. Humphreys and
Dr. Cochran, New York.

6. Vascular Changes in Experimental
Atelectasis, Morphological,
Physiological and Biochemical.

Dr. William E.
Adams, Chicago.

7. The Pleural and Pulmonary Lesions
Resulting from the Intrapleural
Injection of
Mycobacterium Tuberculosis
(*bovis*) in Rabbits.

Dr. Willis S. Lemon,
Rochester.

12:45 p.m. Luncheon, Vanderbilt Hall.

2:00 p.m. Amphitheater, Building C.

Harvard Medical School.

1. Some Reflections on Intrathoracic
Malignant Disease.

Mr. A. Tudor
Edwards, London,
England.
(By special invitation.)

2. Classification of Primary
Bronchogenic Carcinoma in
Relation to Treatment and
Prognosis.

Dr. Evarts A. Graham and
(by invitation)
Dr. William Tuttle
and Dr. Nathan Womack,
St. Louis.

3. A Topographical Classification of
Carcinoma of the Lung. Its
Clinical Application in
the Operative Treatment.

Dr. Harold Neuhof,
New York City.

4. Bronchial Carcinoma, Diagnosis by
Bronchoscopic Biopsy in a Series
of 50 Cases.

Dr. Chevalier L.
Jackson, Philadelphia.

5. Intrathoracic Neurofibroma.

Dr. Stuart W.
Harrington, Rochester,
Minn.

6. Incidence of Hiatus Hernia in
Pregnant Women and its
Significance.

Dr. Leo
Rigler, Minneapolis.

5:00 to 6:00 p.m. Tea with Dr. Elliott C.

Cutler, Laboratory of Surgical

Research, Building C, Harvard Medical School.

Friday, June 1

*9:00a.m. Amphitheater. Building C.
Harvard Medical School.*

1. Executivemeeting of the Association.
2. Thoracoplastyin Bilateral Cavernous Tuberculosis.
Dr. Harold Jessen, Davos-Platz, Switzerland.
(Byspecial invitation.)
3. SimultaneousBilateral Artificial Pneumothorax in the Treatment of Pulmonary Tuberculosis.
Dr. Thomas Kinsella and
(by invitation)
Dr. P. M. Mattill, Oak Grove, Minn.
4. The Importance ofResection of the Transverse Processes as a Primary Procedure in theObliteration of Paravertebral Cavities and in the Revision of an InadequateThoracoplasty.
Dr. Emile Holman, San Francisco.
5. Scaleniotomy withor Subsequent to Phrenicectomy in the Treatment of Pulmonary Tuberculosis.
Dr. Lincoln B. Fisher,
Waverley Hills, Ky.
6. The Results ofOperations on the Phrenic Nerve.
Dr. Adrian V. S.
Lambert, New York.
7. The End-Results inthe Surgical Treatment of Pulmonary Tuberculosis.
Dr. Carl A. Hedblom,
Chicago.

12:45p.m. Luncheon, Vanderbilt Hall.

*2:00 p.m. Amphitheater. Building C.
Harvard Medical School.*

- Demonstrations and Research Problems from the VariousLaboratories of the Harvard Medical School and Local Hospitals.
1. The PostnatalDevelopment of Alveoli in the Mammalian Lung: A Contribution to the Problem ofthe Alveolar Phagocyte. (To bepublished by the Carnegie Institute.)

- Dr. J. Lewis Bremer,
Hersey Professor of
Anatomy.
2. Observations on the Structure and
Function of the Lung of the
Porpoise.
Dr. George B. Wislocki,
Parkman Professor of
Anatomy.
3. Studies in Bronchial Occlusion.
Dr. Cornelius B. Wood,
Assistant Resident
Surgeon, P. B. B.H.
4. Changes in Venous Pressure after
Thoracoplasty: Its Significance in
Relation to the Extent of
Rib Removal.
Dr. Richard H. Overholt
and Dr. Lewis S. Pilcher,
2nd, Lahey Clinic.
5. Studies on Lung Volume with
Experimental Alterations in
Cardiac Output.
Dr. Howard H.
Bradshaw, Instructor in
Anesthesia,
Chief of Anesthesia
Service, M. G. H.
6. Cardiac Output on Exercising
Animals.
Dr. H. F. Robertson,
Assistant Resident
Surgeon, P. B. B.H.
7. Effect of High Oxygen Tension on
the Lung.
Dr. F. J. C. Smith,
Surgical Intern, M. G.
H., and Dr. Granville A.
Bennett, Instructor in
Pathology (from
Department of
Physiology, School of
Public Health).
8. Experimental Angina Pectoris.
Dr. Philip Shambaugh,
Arthur Tracy Cabot
Fellow.
9. Effect of Carbon Dioxide
Hyperventilation on the
Respiratory Function of
Postoperative Patients.
Dr. Henry W. Beecher,
Surgical Intern, M. G.
H.

7:00 p.m. Aesculapian Room, Harvard
Club.

President's Dinner.

President's Address.

Dr. George J. Heuer.

To Be Read by Title

1. A Case of Primary Carcinoma of the Lung. Report Four Years after Lobectomy.

Dr. Clyde I. Allen,
Detroit.

2. Bronchoscopy in Pulmonary Tuberculosis.

Dr. David H. Ballon,
Montreal.

3. The Clinically Significant Irregularities of the Diaphragm.

Dr. Harry C. Ballon, Montreal.

4. Radiotherapy for Bronchorrhea in Bronchiectasis.

Dr. Maurice Berck, New
York.

5. "Pleural Poudrage," the Production of Pleural Adhesions as a Preliminary to Lobectomy.

Dr. Norman Bethune,
Montreal.

6. Multiple Empyemata, with Special Reference to Etiology and Localization.

Dr. Howard L. Beye,
Iowa City.

7. Experimental Thoracogenic Scoliosis

Dr. J. Dewey Bisgard,
Omaha.

8. Postpneumonic Atelectasis as a Possible Cause of Chronic Empyema.

Dr. Ethan F. Butler,
Elmira, N. Y.

9. Thoracoplasty Versus Pneumothorax.

Dr. Pol N. Coryllos, New
York.

10. The Effect of Bronchial Occlusion.

Dr. Elliott C. Cutler and
Dr. Cornelius B. Wood,
Boston.

11. Primary Malignant Tumors of the Thymus Gland, with Report of Two Cases.

Dr. H. Ryerson Decker,
Pittsburgh.

12. Report of a Case of Cardiospasm Due to a Diaphragmatic Gastric Hernia with Ulcer.

Dr. Max Einhorn, Dr.
DeWitt Stetten, and Dr.

- William H. Stewart, New York.
13. Thoracoplasty, a Critical Study of Some Unsatisfactory Results.
Dr. William A. Hudson, Detroit.
 14. The Mortality of Empyema. An Analysis of 75 Cases.
Dr. Urban Maes and Dr. J. Ross Veal, New Orleans.
 15. Spinal Anesthesia in Thoracoplastic Operations for Pulmonary Tuberculosis.
Dr. Harlan F. Newton, Boston.
 16. Thoracoplasty.
Dr. E. J. O'Brien, Detroit.
 17. Pneumonectomy for Carcinoma of the Lung. A Report of the Successful Removal of the Right Lung for Carcinoma.
Dr. Richard H. Overholt, Boston.
 18. Anesthesia in Thoracic Surgery.
Dr. Richard H. Overholt and Dr. Urban H. Eversole, Boston.
 19. The Relationships between Intrapulmonary Pressure and the Circulation of the Blood in the Bronchial and Pulmonary Vessels.
Dr. P. F. Swindle and Dr. J. L. Yates, Milwaukee.
 20. Anatomy of the Diaphragm.
Dr. P. E. Truesdale, Fall River, Mass.
 21. Observations on the Treatment of Empyema Thoracis.
Dr. Owen H. Wangenstein, Minneapolis.

Saturday, June 2

The following programs will be given at the Massachusetts General Hospital, the Peter Bent Brigham Hospital, and the New England Deaconess Hospital on Saturday morning. Members and guests of the Association are cordially invited to attend and take part in the discussion.

Massachusetts General Hospital

8:30 a.m. *Surgical Amphitheater.*

Operative Clinic in Chest Surgery by Members of the Staff.

9:30 a.m. *Ether Dome.*

Clinical Presentations and
Discussions.

1. Certain Aspects of Lung Abscess;
based on a study of 210 Cases.
Drs. Frederick T. Lord
and Donald S. King.
2. Pathology of the Asthmatic
Paroxysm.
Dr. Tracy B. Mallory.
3. Surgical Studies on Bronchial
Asthma.
Dr. James C. White.
4. Pulmonary Manifestation of Boeck's
Sarcoid.
Dr. Aubrey O. Hampton.
5. Benign Tumors of the Bronchus.
Dr. Donald S. King.
6. Chondrosarcoma of the Rib.
Dr. M. Dawson Tyson.
7. Diagnosis of Adhesive (Constrictive)
Pericarditis.
Dr. Paul D. White.
8. Moving
Picture Film, 1/2" Decortication of
the Heart for Adhesive
(Constrictive) Pericarditis."
9. Diagnosis of Pulmonary Embolism.
Dr. Sylvester McGinn.
10. Bilateral Pneumothorax with
Bilateral Pneumolysis.
Dr. John W. Cass, Jr.
11. Fibrosis of the Lower End of the
Esophagus (Cardiospasm).
Dr. Harris P. Mosher.
12. Lobectomy and Pneumonectomy.
Dr. Edw. D. Churchill.

1:00 p.m. Luncheon as Guests of the
*Trustees of the Massachusetts
General Hospital.*
(An Exhibit of Books of
Historical Interest on
Chest Disease and Thoracic
Surgery will be on View in
the Surgical Conference
Room.)

Peter Bent Brigham Hospital.

8:30 a.m. Operations by Staff; 1/2 Drs. Elliott
C. Cutler, David Cheever,
John Homans, William C.
Quinby, Francis C. Newton,
Harlan F. Newton, and Robert
M. Zollinger.

11:00 a.m. Talks, Demonstrations, and Dry
Clinics.

1. Clinical and Experimental Observations Relating to Total Thyroidectomy.
Drs. Elliott C. Cutler, Max T. Schnitker, Philip Shambaugh, Samuel R. Snodgrass, and Leslie Van Raalte.
2. Thoracoplastic Operations for Pulmonary Tuberculosis.
Dr. Harlan F. Newton.
3. Results of Phrenic Neurectomy from an X-ray and Clinical Standpoint.
Drs. Hugh F. Hare and Lowrey F. Davenport.
4. Tumors of the Lung and Bronchi.
Dr. Robert M. Zollinger.
5. X-ray Demonstration "Hard-hearted People."
Dr. Merrill C. Sosman.
6. The Treatment of Patients with Abscess of the Lung and Empyema (Pyopneumothorax).
Dr. Cornelius B. Wood.

1:00 p.m. Luncheon as Guests of Dr. Elliott C. Cutler.

New England Deaconess Hospital

8:00 a.m. Operating Floor.

1. Operative Clinic. Upper Selective Thoracoplasty for Pulmonary Tuberculosis.
Dr. Richard H. Overboil.
2. A Discussion on Intrathoracic Goitre and Esophageal Diverticulum.
Dr. Frank H. Lahey.
3. A Demonstration of Cyclopropane Anesthesia and the Closed Carbon Dioxide Absorption Method.
Dr. Urban H. Eversole.
4. Radio-Sensitive Tumors of the Chest. Case Presentations.
Dr. Hugh F. Hare.
5. Experiences in Exploratory Thoracotomy for Carcinoma of the Lung.
Dr. Richard H. Overholt.
6. The Sedimentation Rate as an Indication of the Effectiveness of Thoracoplasty.
Dr. Nahum R. Pillsbury and Dr. Emil Ossen, Norfolk County Hospital.
7. Presentation of Follow-up Cases. (1) Bronchiectasis. (2) Lung Abscess. (3) Thoracoplasty Patients from Norfolk County Hospital, Bristol

County Hospital, and New
Hampshire State Sanatorium.

*1:00 p.m. Luncheonas guests of the Lahey
Clinic on the Roof of the
Palmer Memorial Hospital.*
